Introducing the

GLAZING SUMMIT AWARDS

The Glazing Summit Awards showcase the UK glass and glazing industry and recognise the world-class companies within it. Focused on organisation excellence the Awards are open to all companies across the supply chain and associated companies who work in or support the industry.

The Award Ceremony and Gala Dinner takes place on Thursday 8th October at Edgbaston Stadium, Birmingham, with the industry's most influential and visionary leaders attending.

Awards are free to enter and companies may enter more than one category, with a transparent, independent judging process.

SPONSORSHIP OPPORTUNITIES

If you would like to connect your brand with industry leaders, then your company can sponsor an award category.

You will receive:

- Full brand association with the event
- Brand promotion on the website
- Extensive pre and post event PR coverage
- Social media promotion
- Video promotion
- Table of 10
- 4-course dinner
- Champagne reception
- You will present the award you have sponsored
- You will be profiled in the event programme

Dual sponsorship

Some sponsors may wish to sponsor both the conference and the awards. If the additional table of 10 is not required with award sponsorship, a reduction is available.

“Our industry has transformed in recent years and some truly outstanding companies, large and small, have emerged. The Glazing Summit Awards aims to recognise business and professional excellence and showcase the glass and glazing industry as an innovative, progressive and dynamic sector.”

Andrew Scott, Glazing Summit Founder
